PROJECTS

HOTEL BOOKING INDUSTRIAL LEVEL APPLICATION | *ReactJs, ExpressJs, Tailwind Typescript, MongoDB, Stripe*

- Developed a full-stack web application using the MERN stack (MongoDB, Express, React, Node.js) with TypeScript to ensure type safety and improved developer experience.
- Implemented dynamic and responsive UIs using Tailwind CSS, optimizing the design for mobile and desktop platforms.
- Used Auth0 for user authentication and authorization, including JWT-based secure routes for API access.
- Implemented MongoDB for database management, enabling efficient storage and retrieval of user and booking data.
- Used stripe, industry level feature to accept payments

Food Ordering E-commerce app | *ReactJs, ExpressJs, Tailwind Typescript, MongoDB*

Aug 2023–Oct 2023

- Developed a full-stack food ordering application to facilitate seamless online food ordering experiences
- Utilized TypeScript for type safety and improved maintainability, enhancing the robustness of the codebase and reducing runtime errors.
- Utilized React Query for data fetching and state management, optimizing API calls and providing real-time updates to the UI without manual refresh.
- Incorporated responsive design principles to ensure a seamless experience across various devices, utilizing media queries and Tailwind's utility-first approach.

Portfolio: "My Work: Innovative Full-Stack Solutions with MERN" | *ReactJs, ExpressJs, Tailwind, MongoDB* 2023

- Developed a Portfolio using MERN to mark Personal Presence in the market
- Learned to deploy the website using git and Render.com.
- Contact Form: Added a contact form for potential employers or collaborators to reach out.
- Animations and Transitions: Used libraries like Framer Motion or React Spring to add smooth animations and transitions, enhancing the user experience..
